# StartAR®

Smart Learning Platform

Demo Book

How it works?

Using StartAR App is simple as 123.

Download the StartAR App.

Download the free Android or iOS app from the respective app stores by searching for "Startar". Register using your mobile number or signup using your Google account

Scan the QR code to activate the books.

After completing the registration, select the sample book. After that you'll be prompted to scan the QR code printed on the first page of the book.

## Scan the images and get immersive learning experience.

Open the sample book and place on a flat surface and enjoy the magical learning experience with StartAR app.

Tested by Schools
Approved by Parents
Loved by Kids

We have done broad research and surveys in which we have collaborated with many parents, teachers and kids to finalise the content. We took everyone's feedback and curated the content suitable for your kids. Once we were satisfied with the content we launched the StartAR Smart Learning Platform.
